

CUSTOM PLASTIC FABRICATION

Leatherwood Plastics' design and manufacturing capabilities allow each project to receive cost saving advantages along with optimum quality construction. We specialize in corrosion-resistant equipment for use in metal finishing, circuit board and semiconductor production facilities. From plating racks to automated plating lines, exhaust hoods to fume scrubbers, glove rinses to wet

process stations, storage cabinets to storage tanks—we have the experience and follow-through ability to satisfy the most specialized requirements. Our design, technical, installation and service departments provide complete customer support through all project phases. We strive for customer satisfaction with attention to quality, economy and on-time delivery.

***PRODUCTS MAY BE CONFIGURED TO ANY CUSTOMER SPECIFICATIONS.
CONSULT OUR SALES DEPARTMENT FOR A QUOTATION ON YOUR REQUIREMENTS.***
